

FEATURES

- High efficiency design, compact and quiet
- Sealed and submersible
- Custom configurations available
- Over temperatures speed rollback
- Dry run detection
- Optimum priming and air purge
- CAN controlled per J1939 -11 or -15
- Protected from transients, short circuit, and reverse battery
- Diagnostic and histogram capability

SPECIFICATIONS

Rated Voltage	12 VDC or 24 VDC
Operating Temperature	-40° to 95°C (203°F)
Storage Temperature	-40° to 125°C (257°F)
Controller	CAN, PWM, or on/off
Weight	6.5lbs (2.95 kg)
Inlet/Outlet Connection	1.0" (25.4 mm) hose
Target Life	20,000 hours
Housing Construction	Cast Aluminum
