

Longer life

More power

Fuel savings

Less maintenance

Training & service tools

THE SOFTWARE ADVANTAGE

With Patent Pending Technology

EMPRedict™

- Gathers engine & temperature data
- Anticipates cooling needs
- Lowers current consumption & fan noise
- Eliminates temperature spikes
- Promotes longer engine & component life

EMPPrecision™

- Individual fan control
- Patented baffles allow for strict air control
- Faster cab warm-up times
- Precisely controls fluid temperatures
- Maintains optimal drivetrain temperatures

BUILT TO LAST

One piece welded steel shroud with patented baffle system

Water-proof wiring harness

Heavy-duty, long-life, aluminum brushless fans

All aluminum bar/plate heat exchanger

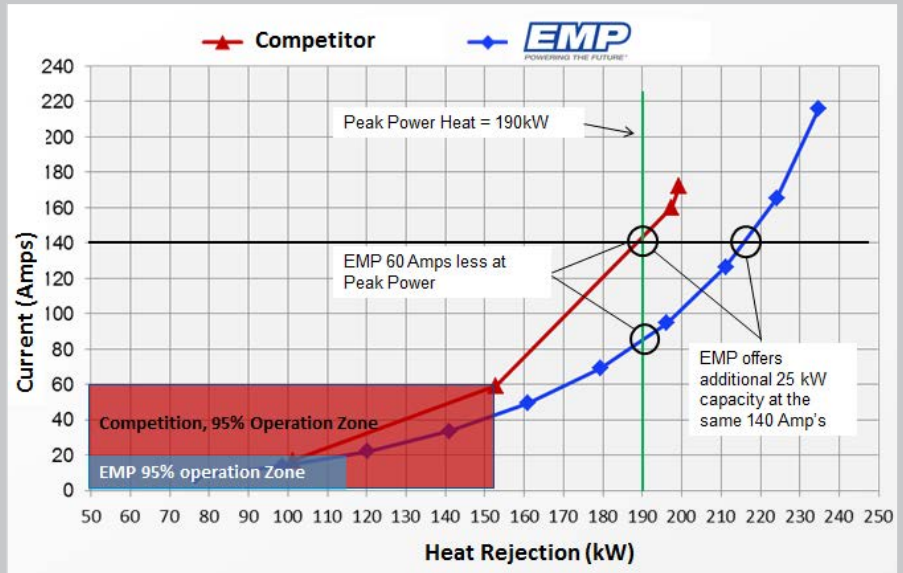

SUPERIOR SYSTEM, SUPERIOR RESULTS

Less Current Usage

Less Noise

Higher Efficiency

UNPARALLELED SERVICE & SUPPORT

Industry leading diagnostics

On-site technician training across North America

No-cost service tool, support, software & manuals

Technical service, application, & engineering support.

TRUSTED ON ALL OEM AND AFTERMARKET APPLICATIONS

CNG

Diesel

Hybrid

Electric
